

## RACE FRICTION IN CANADA.

---

Government Urged to Cure It By Sending People to the Land.

Special to The Star.

Watford, Ont., Feb. 5.—Speaking at the largest public meeting ever held in Watford last evening, Rev. R. S. W. Howard, of Chatham, declared that there is too much friction in Canada to-day between English and French and deplored the effects it would have. He urged the Government to direct its **immigration** policy to sending people back to the soil instead of to the crowded cities. There was no need for unemployment, which makes for poor citizenship.
