

## Foreigner On Fire Brigade.

There is considerable discussion on the street over a recent appointment to the fire department. Members of the trades and labor organizations claim it is unfair to appoint a foreigner when work is so scarce and many citizens with a stake in the community would gladly take a fire job. Chief Armstrong claims the right to select his force having been given that right by by-law. It is likely the matter will be discussed at the next meeting of the civic fire committee and some policy may be adopted looking to a preference for citizens and taxpayers.
