MRS. TAHL IN ENGLAND VICTIM OF IMMIGRATION RE- STRICTIONS.

(Canadian Associated Cable.)

London, Aug. 26.—A remarkable instance of complications over the enforced restrictions upon aliens is furnished by Oscar Tahl of Berlin, Ont., and his widowed mother. They left New York on July 25th on the Kronprinzessin Cecilie, his mother, Mrs. Tahl, intending to visit his father in Germany. The steamer was captured and taken into Falmouth, the passengers being released fairly promptly, however. Tahl finds that the steamship companies refuse to grant his mother, having lived in Canada 25 years, passage back to the Dominion. Tahl himself is a naturalized British subject. Hon. G. H. Perley is endeavoring to arrange the matter.

Another instance of how closely the movements of strangers are looked after is furnished by Dr. Wallace of Guelph, Ont., who was required to produce passports before being granted a ticket for Ireland.
