Two Austrians Are Under Special Guard at the Canal.

Two of the Austrians arrested at the A.C.R. depot Wednesday on their arrival from the Superior Construction Company's work on the A.C.R., are now under special guard at the military quarters at the canal. They refused to give any assurances of keeping the peace and showed animosity at every stage.

In all there are fifteen Austrians under guard at the canal and they will be held until instructions are received from Ottawa. Incriminating papers or cutlery were found in all 15 cases.

There are two shot-guns at the 1st Soo Rifles Armory which were taken from two of the Austrians. One is a double-barrelled gun, and the other a single-barrelled one.
