

New Camp for Alien Enemies

Two Hundred Hungarians Will be Taken From Brandon

Special to The Daily News.

EDMONTON, Oct. 15.—A new internment camp is to be established in Alberta at Jasper, some distance from Edmonton, and Capt. Palmer, of Gen. Otter's staff at Ottawa, who located the camp, says it is well adapted to the purposes for which it is to be used.

At the outset upwards of 200 prisoners will be taken to Jasper. They will come from Brandon internment camp, and for the most part will be Austrians. The principal motive in moving them west is the lack of work which they can be set to at Brandon. At Jasper they will commence the development of the park along lines which have already been formulated by the Government engineers and which will be carried out under the guidance of the military officers who will be in charge of the camp.

To guard the prisoners it is stated that a full company of soldiers will be stationed at the camp, but whether it will be a double company, as under the new Canadian system, or one of the former size, appears to be in doubt locally. At any rate, there will be a company, which will likely be composed of Edmonton officers and men.

It is proposed to quarter the prisoners in huts, which will be constructed by them, with the aid of soldiers. These will be warmly built, and the food and accommodation will be up to the best standard. Supplies for the camp will be procured through Edmonton wholesalers and will give some impetus to business.
