

## Alien Registration.

Ottawa, Nov. 6.—A registration office for Germans and Austrians will be opened in the Thunder Bay district at either Port Arthur or Fort William. It will be in charge of Immigration Inspector McGovern.

The government is opening registration offices only in these districts where it is thought there is likely to be any trouble from aliens of the enemy countries. In districts where Germans or Austrians are found to be of a peaceable and law-abiding character such as in western Ontario, or where the aliens have been residents in Canada for a considerable time, it is not contemplated at present to compel them to register and report regularly.
