

# ALIENS TO WORK CLEARING LANDS

---

MONTREAL — The government's plans for the internment of aliens are rapidly maturing and are likely to be announced very shortly. The province of Quebec, it is understood, has agreed to the proposal of setting apart areas of its crown lands, upon which these foreigners would be put to work in clearing operations and arrangements will be made as quickly as possible to move to such location.

The concentration camps in Quebec will be likely located in Abitibi on the high Gatineau.
