

AUSTRIANS AT OTTAWA.

Surprised That They Are Looked
Upon As Enemies.

Ottawa, Nov. 27.—An official made the statement this morning that it comes as a surprise to the alien Austrians here to learn that they are enemies of the British empire. The Germans know all right, but the Austrians seem to think that they are still our friends.

It is believed it will be decided to have aliens clear arable land along the line of N. T. R., on which they will be given an opportunity to settle after the war is over.
