

Work for Idle Men

Supt. Clarke Endeavoring to Secure Work for Winter Months

Superintendent Clarke, recognizing the needs of the workingmen of Banff for employment this winter, is endeavoring to provide work for the bona fide residents of the town. He has written to Ottawa, also to R. B. Bennett, requesting that certain public works, outlined in his letter, be proceeded with. If his request meets with favorable consideration, and there is little doubt but what it will, there will be no need of any man willing and able to work depending upon charity.

The superintendent has secured a list of names from the different foremen, comprising some 125 men, who are residents of Banff and such work as is obtained will be given to these men exclusively.

Superintendent Clarke has also requested that work on widening the trail at Exshaw be proceeded with.

And another point, which deserves the consideration of the workingmen, is that there will be no 20 cents an hour for a ten hour day on the proposed program.
