

# ALIENS TO CLEAR PETAWAWA

---

Will Be Put at Work in the Woods  
of Algonquin Park.

Special to The Star.

Ottawa, Dec. 4.—A definite decision should be reached to put four or five hundred alien enemies now interned in Ontario at work at Petawawa artillery camp during the winter months. They will put the camp in shape for the training of Canadian troops as soon as the snow goes in the spring. The work of the alien enemies will be to make roads and clear away bush.

It is likely that several hundred additional Austrians and Germans will be put at similar work in Algonquin Park. Negotiations with that purpose in view are proceeding between the Dominion and Provincial Governments.
