

BOARD OF EDUCATION ON AN ALIEN HUNT

CHIEF INSPECTOR SEARCHING STAFF FOR ENEMIES—NEW BUILDING PLANS.

All departments of the Board of Education are ransacking their staffs for alien enemies, and a report as to the result of the search will be presented to the board next Thursday. So far no alien has been found on the teaching staff by Chief Inspector Cowley, nor nothing in the other departments. The inquiry is being carried on at the request of Trustee Steeie, and if any alien enemies are discovered he will ask for their immediate dismissal.

Plans for the new school administration building were submitted to and approved by the Property Committee of the Board of Education yesterday. The new building is to be situated beside the present Technical School on College street, and will cost \$100,000. The structure will be built of stone, brick and steel, and will be four stories high, with accommodation for one hundred officials.

It is proposed to proceed with the erection of the building as early in the new year as possible. The new building will not only relieve the City Hall, but will give increased accommodation to the board officials.
