

# THIRTY-FIVE ALIENS REGISTER DAILY AT THE LOCAL OFFICE

Foreigners from countries hostile to the British Empire continue to manifest the keenest interest in the government registration of aliens, which is being conducted by Inspector Jennings, R.N.W.M.P.

Yesterday the registration offices were literally swamped with applicants for certificates and although the normal capacity for registering aliens is approximately thirty-five per day, over seventy were taken care of by the inspector.

Up to date more than 225 have been registered. This number represents about eight per cent of the total to be questioned and certificated in the Edmonton district.

Inspector Jennings received authorization from Ottawa today to close the office from Thursday afternoon until Monday morning.
