

ONLY 1,800 ALIEN ENEMIES INTERNED

The situation in the larger centres where there was said to be much suffering among destitute Austrians and Germans seems to be very largely relieved now. Only some 1,800 men have been interned, although many times that number have registered and are reporting regularly. It is probable, however, that before the winter is over many will be without means of support and will go to the internment camps.

Within the last couple of days 27 alien enemies were sent from Ottawa to Kingston to be interned.

General Sir William Otter is in Toronto in connection with the internment work.
