

Canada Still Overrun With German Spies

New York, Jan. 18.—A warning to Canadians against the German spy system which exists in the dominion was given by Walter Bennett, consul-general of Great Britain for New York, in an interview. He claims that information of much value to Germany 's leaking out of Canada as a result of it.

"There are a tremendous number of German and Austrian spies in Canada who are still at large, and if the authorities in the dominion think otherwise they are mistaken," he said. "I wish Canada would place all Germans and Austrians in custody, and the sooner she does so the better it will be for the British cause."
