

Contractors May Employ Any Aliens

Law Does Not Give City Any Power Over These on Civic Work

The Mayor asked the Board of Control to-day if contractors for civic work should not be required to employ only naturalized citizens. The solicitor had reported that there was no power as the law is at present.

"We were bonusing foreigners to come in a few years ago," said Controller O'Neill. "Now we want to cut them off."

"I don't object to citizens who have lived here no matter where they were born," said the Mayor.
