

CABMAN AIDED ENEMY

To Leave Canada, and May Get Into Trouble.

The Hungarian who was driven to Wolfe Island by a local cab driver, and who managed to cross the border before being captured, was brought to the city on Saturday by United States Inspector Lewis. The cab-driver, who took him across, is liable to punishment as this is a case of high treason. Cab drivers should be careful about those they drive across the line. In this case a resident of a country with which England is at war was aided in leaving Canada.
