

Round Up Enemy Aliens. — The slowness of German and Austrian un-naturalized aliens living in Transcona in coming forward and registering has resulted in the militia officials giving orders that all aliens who have not registered be at once rounded up by the police. A warning to this effect was issued some time ago by the authorities but when the matter was published in the Free Press a number of letters were received from presumably Germans, written in a disguised hand and unsigned, all of which laughed at the authorities' efforts to have them register.
