

## WANT TO EXTRADIATE HORN.

Boston, March 25.—An agent of the Canadian Government visited William A. Hayes, jr., U. S. Commissioner, to-day in connection with the case of Werner Horn.

It is understood that the Canadian official, who was accompanied by an attorney, applied for a warrant for Horn's extradition to Canada for trial. The commissioner said after his callers had departed that he would not discuss the matter, as it was a rule of his office to make no statements regarding warrants after they had been served.
