

## GLAD TO BE ~~INTERNEED~~.

### Prospect of Food Pleases Two Hapless Austrian Laborers.

"No work, no money, no eat," was the way two Austrian laborers, Metro Mosorum and Pawlo Grysak, described their predicament at the Alien Registration Office to-day. As the prospect of their obtaining work was so slight, the registrar decided to have them ~~interned~~. The idea of being taken in charge by a military guard failed to appeal to them, but when it was explained that they would be fed for the duration of the war and be paid 25 cents a day for the work, while clearing land, which land they might obtain on easy terms, when peace is signed, they expressed their readiness to go. An indication of the treatment they will receive at the hands of officials who are not disciples of "Kultur" came in the form of two generously stocked box lunches, which they welcomed with hearty smiles. The former is a native of Niusum, Austria, and lived at 49 Ontario street, while Grysak comes from Hirna, and stayed at 62 Louisa street. Both have been in Canada two years.
