

## ALIENS ROUTE TO STATES.

---

Canadian Press Despatch.

Rossland, B.C., June 12.—By the arrest of two Austrians and through letters found on them the police believe they have discovered means by which alien enemies were crossing the border and seeking transportation to native countries. The letters contained explicit instructions about getting to the United States via Trail, to Newport, Washington, and Meyers Falls, where they would be met by Austrian agents, and there were diagrams showing bridges guarded by soldiers. It is believed many allens escaped this way.
