GERMAN PRISONER SHOT DEAD BY GUARD

Four Others Seriously Wounded
When Several Tried to Escape
Near Amherst, N.S.

(Canadian Press Despatch.)

Amherst, N.S., June 24.—During an outbreak early this morning at the alien internment camp near Amherst, one of the prisoners, Fritz Clause, a German, was shot dead, and four others, also said to be Germans, were seriously wounded. A rumor was abroad during the day that the shooting occurred when a squad of German prisoners attempted to escape. Few details are obtainable. All that can be learned is contained in the following version, obtained from a competent source:

"While the prisoners of war in the detention camp were being conducted to the compound for physical exercise, one of them, Fritz Clause, assaulted one of the internment police, knocking him insensible. The camp police, with the guard, was called out to quell the mutiny, and in the meantime the originator of the trouble was shot dead and four of the other prisoners were seriously wounded."

There are about 500 prisoners in the camp, including more than 100 German sailors who were rescued from cruisers after engagements in the Atlantic.

TEMPERANCE BILL PASSED IN REGINA

(Canadian Press Despatch.)

Regina, Sask., June 24.—With thumping of desks and Parliamentary "cheers," the Government's temperance legislation was this evening, in the dying hours of the Saskatchewan Legislative session, given a third reading and is now law. The bill was given a third reading after division. Division was forced by the presentation by the Opposition of an amendment declaring for a referendum on the legislation, an attitude adopted by the Opposition early in the session. The Government representation voted solidly against the amendment, and the bill was passed through committee just before 6 o'clock.

The Lieutenant-Governor formally prorogued the House to-night.

NATIONAL REGISTRATION.

London, June 24.—It is reported that the Government is to introduce next week a bill to establish a national register, which will show where the workers in particular trades are to be found. There will be a system of indexing the men according to their trade, so that, if necessary, the Government may quickly find those required for any particular war industry.
