

INDIA TO SEND AWAY THE ALIEN ENEMIES

FOR OWN AND EMPIRE'S SAFETY
THEY WILL BE REPATRIATED,
GOVERNMENT SAYS.

(From Reuter's Ottawa Agency.)

London, Aug. 15.—The Government of India, according to a special despatch from Simla, has been obliged to adopt more drastic measures in the treatment of alien enemies throughout the Empire. The despatch says:

"A statement describing in detail the measures for internment, surveillance and registration hitherto applied to alien enemies in India has been issued by the Government. It states that the prolongation of the war and the bitterness aroused by German savagery have now altered the position, besides adding to the continued strain of supervision. It has accordingly been decided, with the approval of the Secretary of State for India, to repatriate all women, children and men of non-military age as soon as the necessary arrangements can be carried out."

LAD DROWNED NEAR LUCKNOW.

Went Bathing in Deep Water, Though
Unable to Swim.

(G. N. W. Press Despatch.)

Lucknow, Aug. 15.—About noon today Charlie Lochart, sixteen years of age, second son of Ezekiel Lochart, 4th Concession, Kinloss, lost his life in Purvis' Lake, about two miles from town. Young Lochart, accompanied by a young English lad, neither of whom could swim, had gone to the lake with the intention of having a bath. Lochart was the first to enter the water, going down in about ten feet. When he did not rise to the surface after a considerable length of time his companion became alarmed, and rushed to the home of a farmer not far distant, but the body was not recovered till about 2.30, being in the water more than two hours. Two doctors worked over him for some time, but life was extinct. The funeral will be held on Tuesday.
