

CANADIAN POLES FRIENDS OF ALLIES

By Bulletin Leased Wire

WINNIPEG, Aug. 30.—At a mass meeting of Poles held here resolutions were passed declaring that the Poles in Canada were the sincere friends of the allies and appealing for the protection of the Dominion government from treatment as alien enemies. In the course of the meeting it was stated that Polish people living in Canada were frequently exposed to unnecessary hardships, partly through their ignorance of the English language and partly because the military registration authorities were not always able to distinguish between a Pole from Austria and Germany and a German or Austrian from these countries.
