

200 AUSTRIANS TO BE SET TO WORK IN JASPER PARK

**Prisoners Interned at Brandon
May Be Transferred for
the Winter.**

It is probable that some 200 Austrians, who have been in the internment camp at Brandon, will be wintered at Jasper Park. Captain Palmer, of General Otter's staff, is in the city today on his return from a visit to Jasper Park, where he was looking into the possibilities of placing these men there. At present there is no work for them at Brandon. At Jasper they could be put to work on the roads in the park, as well as cutting wood, which would be sold in cities for the cost of the freight.

Captain Palmer will recommend the transfer. If headquarters approves, log houses will be built for the prisoners' accommodation and barbed wire enclosures erected. A military guard of 70 will be required.
