

# NO GUNS FOR ALIENS

**Germans Make Requests for Restoration of Firearms but Will be Refused**

Germans in possession of guns of any kind in the outlying districts are being closely watched by the Mounted Police owing to the number of requests that have been received from Germans for the restoration of their rifles and shotguns which in some cases were taken away from them when it was learned that the owners were aliens.

With the hunting season on, the Germans claim they have good and sufficient reasons for wanting their firearms, as they are as prone to hunt elusive wild game and fowl as other citizens. Consequently they have requested the return of their guns in many instances.

The Mounted Police, however, are not considering any such requests unless they have ample evidence other than naturalization papers that foreigners making such requests are in A-1 standing in the community. Even then the police use their discretion.
