

An Alien Enemy Cannot Press Claim

Austrian Sought Damages From —G.T.R. But Court Re- fuses Case

Theodore Slogchuk is an Austrian, and an alien enemy, and for that reason his action against the Grand Trunk Railway Company for damages arising out of an accident, cannot proceed. A motion on the part of the company was made before Mr. Justice Middleton yesterday and was favorably considered. Slogchuk came to Canada on July 1, 1914, and obtained employment with the G. T. R. at Port Union. He was cutting rails when a rail fell, inflicting injuries to his leg. Unstated damages were claimed against the company because of alleged negligence. Under the Order of Council passed in August, 1914, Slogchuk will be given protection, having duly registered.
