

## BATTALIONS LEAVE CAMP

### Three Report For Overseas—Warning Against Enlistment of Enemies

Niagara Camp, July 29.—The following has appeared in camp orders:

"Numerous cases have been reported that alien enemies have enlisted in the Canadian Expeditionary Forces, who have represented themselves to be Serbians or Roumanians. Owing to the great difficulty of determining the nationality of a great many foreigners, it is hereby notified for the information of all recruiting officers and commanding officers that whenever there is any doubt to the nationality of foreigners when they offer themselves for enlistment, such cases should be referred to the superintendant of immigration. It is important that the man's correct name, age, date of arrival in Canada, name of port of entry (whether Canadian or American), the name of the steamship and as nearly as possible the date of arrival should be furnished. All such cases should be investigated by the superintendant of immigration before such enlistment is carried out. This action is taken to prevent alien enemies in forces going overseas."

The three battalions, 119th, 120th and 123rd, left for the east Thursday afternoon.

The 169th Battalion is moving from Camp Mississauga to the new camp ground.
