

INTERNMENT CAMP AT JASPER HAS BEEN BROKEN UP

Least Dangerous Prisoners to Be Employed By the Railways

The internment camp at Jasper has been broken up and the inmates sent to different quarters, some have gone to Lethbridge and will be interned there, while others—perhaps what are considered the least dangerous—have been engaged by the C.P.R. and G.T.P. railways to do work on their lines, and will report at intervals to the department according to the laws and regulations governing aliens in the country. Those of the officers in charge of the camp who are physically fit will enlist in overseas battalions, although those who have been in charge are mostly returned soldiers and men who have already offered their services for overseas and were rejected.

From 200 to 208 men have been at the camp at Jasper, and since this has been opened a great deal of work has been done to the townsite.
