

# ALIEN MARINERS MUST HAVE PASSPORTS.

OTTAWA, Sept. 1—An Order-in-Council has been passed tightening the restrictions against the landing at Canadian port of any mariner who might be of enemy nationality. It is provided that any alien who is an officer or member of a crew of a vessel arriving at any of Canada's ocean ports must not be permitted to land until he has satisfactorily established that he is not of enemy nationality. Proof of his neutrality must be furnished to Government officers by the production of a passport, or other documents establishing his nationality and identity and attached to the passport there must be a photograph of the alien to whom it relates.

The port officials are given authority to permit the landing of any alien of temporary purposes. United States officers or members of the crew of a United States fishing vessel are exempted from these special regulations.
