

Aliens Clearing Farms

Between 2,000 and 3,000 enemy aliens, Germans and Austrians, who make their headquarters at the government detention camp, are engaged in clearing the land around Kapuskasing, 70 miles north of Cochrane. Here the new Dominion Experimental Farm and the settlement of the Ontario government for her returned soldiers, many of whom are now being educated in the vocational training centres of the military hospitals commission in the arts of tilling the soil, will be located.
