

Want Every Man and Woman Registered:—Among the resolutions passed at a recent meeting of the Stone-wall and Rockwood district R.S.A., were ones urging registration of every man and woman in Canada, the limiting of passenger traffic to persons who had a passport from a municipal official, a clearing house for labor, the performance by every person of some labor useful to the state, a military policeman for each municipal office for the enforcement of service, and the internment of every person who did not obey these orders. The meeting also asked that the federal government provide work and enforce the performance of the same by persons interned.
