

# **IDLERS IN CANADA TO BE DEALT WITH**

---

## **All Loafing Aliens and the Idle Rich Will Be Attended To.**

---

(Canadian Press Despatch)

Ottawa, April 5.—An Order-in-Council has been prepared dealing with the question of idlers. It is felt at the present national crisis that the whole man power of the country is required either for the fighting forces at the front or for greater production and that it is intolerable there should be any idlers in Canada. Aliens, it is claimed, often work for several months at high wages and then spend as many months loafing. The terms of the order have not yet been made public but it is presumed that aliens of enemy birth who refuse to work will be interned and others conscripted. The order will also likely hit at the idle rich.
