

CLAIM AN ALIEN HAS HOSPITAL BREAD CONTRACT

Special to The Journal.

KINGSTON, April 15.—The Great War Veterans' Association and the Trades and Labor Council had the alien labor question up for discussion at another meeting Sunday, and decided to take vigorous action against the employment of alien labor here. They will urge the Government to take action. In the discussion it was alleged that at present an alien enemy is under Government contract supplying bread to the Mowat Memorial Hospital where sick soldiers are being cared for. It is further alleged that there are employers who are showing indifference to native labor and returned soldiers.
