

# YOUNG ALIENS CALLED FOR NON-COMBATANT CORPS

Associated Press by Leased Wire

TORONTO, May 8.—The Ontario Provincial Registrar is now engaged with the problem of calling up the aliens between the ages of 20 and 22 who are in Category A, and steps are being taken to see that all such go through the regular routine towards military service in the same manner that the Canadian boys have been going for some months.

The instructions from Ottawa state that these men will have to be given places in non-combatant services.

The aliens to be called are those specially mentioned in the War Times Election Act, who were granted exemption under that measure, inasmuch as they were deprived of the vote.
