

VETERANS WANT DRASTIC ACTION ON ENEMY ALIENS

Toronto, Aug. 2.—A drastic resolution regarding enemy aliens passed unanimously at the veterans convention. It demands the internment of all aliens not engaged in work of national importance; restriction in travel within a five mile radius; the appointment of a custodian of alien enemy property; the strict enforcement of present alien enemy laws; the reduction of income of married aliens subject to taxation from \$3000 to \$1,500 and of unmarried from \$1,500 to \$750 with a surtax of 10 per cent., the suppression of enemy alien books and newspapers, the dismissal of alien enemies employed by the government and the application of the Military Service Act to all enemy aliens, with the alternative of returning to their own country.

Serious in West

Comrade MacNell of Saskatchewan said a serious situation obtained in the west where newspapers were published in the German language, stirring up disloyalty among enemy aliens who otherwise would be neutral, or with proper guidance, would be pro-ally.

"These papers are used by people who are disloyal. We have protested repeatedly to the government but have received only evasive answers."

A revised draft of the constitution was submitted.
