

CATCH UNDESIRABLES AT AMERICAN BORDER

Associated Press by Leased Wire.

ST. JOHNSBURY, Vt., July 12.—

What is believed to have been an attempt to smuggle undesirable aliens across the Canadian border into this country, was frustrated yesterday when seven Russians were arrested here by United States immigration authorities. The aliens said that they paid \$175 to an automobile driver to take them from Montreal to St. Armand, where they were met by another machine bearing a Vermont registration number and brought to Fletcher. They boarded the train there for this city. As two of them were crippled with infantile paralysis, the conductor on the train became suspicious and notified the Vermont authorities.
