

LOCAL EMPLOYMENT AGENTS LICENSED AFTER THIS DATE

**New Order-in-Council Puts
Them Under Control of
Immigration Dep't.**

**OF SPECIAL
INTEREST HERE**

**Sault is Becoming Important
Center of Employment
of Labor.**

By result of an order-in-council that was issued at Ottawa on Monday all employment agencies are brought under the direct control of the immigration department of the Dominion Government.

Mr. Ed. Hoffingsworth, inspector in charge at the Sault, informed the Star to-day that he had received word from the department that this was the case, and that in a few days he expected to have all the papers in connection with the new arrangement, so that he would be able to give local men their instructions.

According to the new law the employment agents and intelligence offices will have to take out a license from the immigration department, which will not cost them anything but will bring them under the control of the officials.

The Sault is getting to be more and more a place where the employment agencies secure men for lumber and construction camps. The recent move made by the A.C.R. to get the Superior Construction Company, and Foley Bros., the contractors for the A.C.R. and the C.N.R. construction work respectively, has increased this, and made this phase of the Sault's activities more prominent. So the new regulation will have a very important bearing at the Sault, and will be of interest to local employers of labor.
