

MOBILIZE AT MONTREAL

Austrian Consul-General to Charter Steamer

Winnipeg, July 30.—The official programme of the partial mobilization order issued by the Government of Austria-Hungary is published in Winnipeg in the Ukrainian Voice and other papers of the nationalities concerned.

The men concerned in the mobilization are being informed by announcement cards, in addition to the mobilization orders. The order promises that expenses of travelling will be paid, and this will make considerable difference in the number returning.

The proclamation states that "His Imperial and Royal Majesty is proclaiming a full amnesty to all those who will immediately return home. This embraces those who are considered as deserters, and who did not show up for conscription."

Sixty North Winnipeg Austrians leave for the fighting front next Wednesday. Their tickets have been purchased as far as Montreal. At that port they will be mobilized by the consul-general of Austria, who is arranging, it is said, with the Canadian Northern Railway for the charter of a special transport steamer.
