

Lively Scenes With Foreigners.

Brandon, Man., Aug. 2.—The streets are thronged tonight with people anxious to hear the latest war news. Local military men are everywhere in evidence, and it is believed by them that some action will be taken tomorrow in the way of mobilization, though none of the officers have any official announcement to make tonight. A prominent military man states that it is likely that all regiments from Brandon and east of the district will be stationed on the eastern coast, while soldiers west of here will go to Vancouver. A few lively scenes were enacted on the flats here today, when members of the conflicting nationalities came in contact. Nothing, however, of a serious nature happened. Several Austrians are loudly declaring their intention to go to the scene of activities.
