

Will Not Molest Peaceful Germans

No Truth in Rumors of Search of Houses as Result of Geercke Case

A rumor that all houses in Toronto occupied by Germans would be searched following the discovery of dynamite at the residence of H. Geercke, at Scarborough Junction, has been dispelled by the Detective Department.

"There is absolutely no truth in the rumor," said Inspector Kennedy to The News. "There are hundreds of good German citizens in Toronto, and because dynamite has been found in the possession of one it does not mean that they are all bad. Oh, no! As long as Germans behave they will not be molested in this city," concluded the inspector.
