

C. P. R.'s PATRIOTISM.

Mayor Morris received a letter this week from C. P. R. Superintendent Gilliland at Smith's Falls, offering employment to 175 men on the road of that company between Brockville and Chalk River. It was clearly stated that all men employed must be British subjects, Servians, Russians, French or Belgians. The Canadian Pacific Railway Company must be highly commended for the patriotism it is showing during the war. When the Patriotic Fund was first opened, one of the first contributions received was the magnificent sum of \$100,000 from that company. Sir Thomas Shaughnessy, - president of the company, was one of the five men affiliated with the Hon. Clifford Sifton in equipping the First Canadian Machine Gun Battery and now, proving that the organization is one composed of true patriots, it is doing everything in its power to provide work for the unemployed, although such work is not really necessary at the present time. Would that there were other corporations of that kind in Canada. Hats off to the C. P. R.
