

Montreal Mail: The German-Canadian Alliance of Saskatchewan has addressed a petition to Sir Robert Borden asking for the suppression of Canadian newspapers which are printing anti-German articles.

The German Canadian Alliance ought to be sharply reprimanded for a piece of impertinence almost unbelievable. Their object, undoubtedly, is to help Germany. Scarcely more daring and impudent would be a request for transportation and safe carriage to Germany to fight for the enemy. The importance of this outrageous request is that it calls attention to the fact that Canada contains German elements which will bear watching. It would be interesting to know what members of parliament represents the district from which this strange and ill-timed request has come, and what he has got to say about the kind of political propaganda he has been carrying on.
