

## FOUR MORE AUSTRIANS TAKEN HERE YESTERDAY.

The Immigration Department had another haul to add this morning to their long list of successful captures during the last week or so. Four aliens, who stated they were Roumanians, were detained and searched, while attempting to board the train yesterday for America. Papers in their possession proved that they were Austrians, and they were immediately dispatched to the Armories. There is no doubt that while this great strife is continuing in the East the watching for these gentlemen is no light duty. The immigration authorities have their hands pretty full just now in preventing aliens from making their way East to join the enemy's forces.
