

CANADA IN STATE OF WAR WITH TURKEY

**German Officers Sent to Help
Sultan's Army—All Foreigners
Are in Danger.**

(Free Press Special.)

Ottawa, Nov. 5.—The Canadian government will issue a special of the Canadian Gazette proclaiming a state of war against Turkey and bringing into effect against the subjects of that country all the orders in council already passed against Germany and Austria.

These orders include the recent ones passed with regard to the compulsory registration of all Germans and Austrians in Canada; the same provision will apply to all Turks in the Dominion.

Reports received from the Royal Northwest Mounted Police show that there are now nearly 200,000 Austrians and Germans in Alberta and Saskatchewan, while elsewhere in Canada there are about 100,000. The government plans to keep a considerable number of these employed under supervision in the west this winter and next spring to put them on public works connected with the clearing up of Dominion parks, the building of roads through them, etc. There is also a proposal under consideration to set them at work in the spring breaking up and tilling suitable areas of Dominion lands, not now cultivated in the west.
