

ALIENS MAY WORK IN PARKS

Cabinet Considering Question to Cut Wood For Needy.

Ottawa, Nov. 23—The best method of handling the alien enemies who are now being registered in various parts of the country, and who it is felt should be interned, is now being considered by the cabinet.

Negotiations are in progress with the provincial governments to see if arrangements can be made to put them at work in the provincial forests cutting wood for needy Canadians. In Ontario they would be placed at work under guard in Algonquin Park; Western Canada in Rocky Mountain and Jasper Park.
