

# NEW EXPERIMENTAL FARM

---

## Austrian and German Prisoners to Clear the Land.

---

Prof. J. H. Gridale, director of the Dominion Experimental Farm, has left with a representative of the Ontario agricultural department to locate the new experimental farm near Hearst, Ont. A party of sixty Austrian and German prisoners who have been interned at Kingston have been sent up to carry on clearing operations and the number will be augmented shortly. Prof. Gridale will afterwards assist the Quebec authorities in the location of the farm at Kapasusing, in the northern Quebec district.
