

ENGLISH FOR FOREIGNERS.

"English for foreigners," is the slogan of a little band of University men who have labored for a long time, under the auspices of the West End Y.M.C.A., teaching foreigners English, free and without charge. Last evening the West End "Y" entertained the workers in the Association Building.

Eighty-three classes, each with a weekly meeting, have been held so far, this season; and 1,068 foreigners have attended them. Sixty of the classes are in private homes, and the balance in churches, shops and halls. There is a staff of eighty-nine teachers, who give their services free of charge.
