

Prof. Benzinger to Receive an Exeat

Newly-issued Regulations Re- quire Pledge of All Applicants

Professor Emmanuel Benzinger will be granted an exeat to go to Princeton. Other alien enemies to whom Mr. A. J. Russell Snow, K.C., Registrar, has promised exeat are: Messrs. G. A. Helleken and Arthur Voss, agents, who also desire to go to the United States. As they had no photograph with them they were obliged to have such specially taken yesterday.

A new schedule of information required from those requesting exeat has been drawn up. It includes some thirty-five items. Among other things asked are: "Will you undertake that you will not speak or write, either for publication or otherwise, anything that might tend to injure the cause of Great Britain and the allies or to benefit their enemies?"

They are also required to promise not to perform hostile acts, aid, abet or assist in any way the enemies of Great Britain or her allies, nor to give any information. They are asked if they have any photo or sketch of Toronto or any information as to the allies' defences.
