

## Aliens Must Register or be Arrested

All alien enemies must register by February 15 or they will be arrested and interned as prisoners of war. Notices to this effect are being posted within a twenty-mile radius of Toronto. The object is to round up those who have not yet registered, of whom there are a considerable number. It is added that "no exceptions will be made, and no excuses will be taken for non-compliance with this order. God save the King."
