

ALIENS REGISTERING.

Up to last night 1,430 aliens had registered with Inspector Jennings, official registrar for the Dominion. Of this number, 1,149 are Austrians, 268 Germans and 13 Turks. Nine exit visas have been issued to aliens who wished to go to the United States on business. Three aliens have been interned at Lethbridge, but the policy of the inspector has not been to intern men except under exceptional circumstances, as instructions have been received that the accommodation for such people at Lethbridge has been exhausted. Inspector Jennings says that the reason of the many who are coming now—and they average about thirty a day—is on account of the cessation of work on the railways, and these men drift into Edmonton, while not really residents of the city.
